

Report On

Student and Faculty Exchange Programmes

Under MoU

With Sammilani College

Organised By Department of Microbiology of Raidighi College

In Collaboration with

Department of Microbiology of Sammilani College

Programmes under MoU with Sammilani Mahavidyalaya
Eastern Metropolitan Bypass, 1925, Chak Garia, Baghajatin Colony, Kolkata, West Bengal 700094

Session 2019-20

Sl. No.	Title of the Event or Activity Organised	Date or Period of the Event or Activity	Convenor of the Event or Involved Teacher(s)	No. of Participants	Beneficiary
1.	Laboratory Facility Uses for UG Students	19-09-2019 to 02/2020	Arunima Biswas, Raidighi College	4	Students

15.3.24

Signature of the Principal

Subject: Request to share infrastructural facility for Microbiology Honours Practical

Dear Sir,

I hereby earnestly request you to kindly share your infrastructural facility for Microbiology Semester 3 Honours practical with our students for the following experiments during this odd semester:

1. Estimation of DNA and RNA using UV spectrophotometer (demonstration by Teachers)
2. Resolution and visualization of proteins by Polyacrylamide Gel Electrophoresis (demonstration by Teachers)

Thanking you,
Sincerely,

Signature of Principal
PRINCIPAL
RAIDIGHI COLLEGE

Dr. Sasabindu Jana
Principal,
Raidighi College
Phone: 91-9735310008

The above letter was sent to Sammilani Mahavidyalaya and the request was granted. Thereby 3 Semester 3 students and 1 student of PART III batch of Microbiology Honours of Raidighi College could carry out the above experiments in the Microbiology lab of Sammilani Mahavidyalaya, under the guidance of HoDs of participating Depts, namely Dr. Sharmila Chakraborty and Dr. Arunima Biswas, during September 2019 to February 2020, on dates specified by the host department. Number of days actually taken to complete the experiments was 5.

Collaborative initiative under MoU between Raidighi College and Sammilani Mahavidyalaya: WEBINAR SERIES --- JULY, 2020

In July 2020, Department of Microbiology & IQAC of Raidighi College and Department of Microbiology & IQAC of Sammilani Mahavidyalaya jointly organised 3 national-level webinars which focussed on the recent trends in research methodologies in different fields of modern biological sciences. The webinars constituted a collaborative webinar series entitled **National Level 3-day Webinar Series on Research Methodologies ~ "Science amidst Covid Pandemic: Life Goes On....."**.

Thought behind the initiative:

At a time when the Covid-19 pandemic is threatening the existence of mankind and has crippled the entire world, confining common public to a global lockdown, it seems prudent to express the undaunted and resilient spirit of the scientific community of West Bengal through a series of webinars highlighting important research areas. Most of us are adapting to the neo-normal in higher studies and research, turning more and more to various digital platforms to ensure the continuity of learning. Such platforms are helping to bring the science community closer than ever before and providing excellent opportunity to share and exchange knowledge and experience. This has motivated the two collaborating institutes to organize 3 webinars where 3 esteemed scientists have been invited to discuss crucial research methodologies adopted to study their specific fields of interest. The speakers are Prof. Biswadip Das of Jadavpur University, Dr. Shaon Ray Chaudhuri of Tripura University and Dr. Arnab Mukhopadhyay of NII, New Delhi.

- The first webinar highlights the research methods of the Das lab to study eukaryotic gene regulation in yeast.
- The second webinar is themed on the research methods and microbial techniques of Ray Chaudhuri lab that can help us minimize and abate pollution with concurrent conversion of waste to value added products that, in turn, can ensure food security.
- The third webinar focuses on research methods used to probe gene interactions in molecular aging and how the Mukhopadhyay lab uses those to study longevity in the model organism *C. elegans*.

*Department of Microbiology & IQAC of Raidighi College
and
Department of Microbiology & IQAC of Sammilani Mahavidyalaya
jointly present*

National Level 3-day Webinar Series on Research Methodologies
"Science amidst Covid Pandemic: Life Goes On....."

3 Days

3 Webinars

3 renowned speakers

16th July 2020, 3pm

Speaker:
Dr. Biswadip Das, Professor,
Dept. of Life Science &
Biotechnology, Jadavpur
University

**Topic: Regulation of eukaryotic gene
at post-transcriptional level**

Registration link:
<https://forms.gle/GP7pHSjvTa7PA8nN7>

17th July 2020, 11.30am

Speaker:
Dr. Shaon Ray Chaudhuri,
Associate Professor, Dept. of
Microbiology, Tripura University

**Topic: Microbial Technology for clean
and green environment with
nutritious food for masses**

Registration link:
<https://forms.gle/LijNonoCBAd8HgHQ8>

21st July 2020, 11.30am

Speaker:
Dr. Arnab Mukhopadhyay,
Scientist, National Institute of
Immunology, New Delhi

**Topic: Gene interactions that control
longevity**

Registration link:
<https://forms.gle/ytXWnYYjJ9EkffyH9>

Program Flier: First announcement of the 3 webinars

Platform: Google meet
Registration: Free
Last date of Registration: 10th July, 2020, 10pm or till capacity is reached
(whichever is earlier)

E-certificates will be provided on submission of feedback form after every lecture

Chief Patrons

Dr. Sasabindu Jana
Principal, Raidighi College

Dr. Santiranjana Palchoudhuri
Principal, Sammilani Mahavidyalaya

Convenors: Dr. Sharmila Chakraborty & Dr. Arunima Biswas

Organizing Committee

- ❖ Faculty members of Dept. of Microbiology, Raidighi College
(Dr. Shakuntala Ghorai, Mr. Prabir Sahoo)
- ❖ Faculty members of Dept. of Microbiology, Sammilani Mahavidyalaya
(Ms. Pamela Dutta Roy, Ms. Aryoma Chakrabarti, Ms. Madhuwrita Saha)
- ❖ IQAC of Sammilani Mahavidyalaya & Raidighi College

Program Details

WEBINAR 1

Department of Microbiology & IQAC of Raidighi College
and
Department of Microbiology & IQAC of Sammilani Mahavidyalaya
Welcome you all to the 1st webinar of the
National Level Webinar Series on Research Methodologies
Science amidst Covid Pandemic:
Life Goes On....
16th July 2020

Speaker:

Dr. Biswadip Das
Professor, Dept. of Life Science & Biotechnology, Jadavpur University

Research Methodology Topic: Regulation of Eukaryotic Gene at Post-transcriptional Level

BANNER of WEBINAR 1

Number of registered participants for webinar 1 held on 16th July 2020 were 92.

Webinar Summary

The inauguration session started with welcome address on behalf of the convenors followed by motivational speeches from the respected Principals of the two collaborating colleges who urged the participants to have faith in science and appreciated the efforts of all selfless and gallant Covid warriors fighting to save life, and working hard to discover a cure from this deadly infection.

The IQAC Coordinators both stressed the importance of continuing our science pursuit for the benefit of society.

Dr. Biswadip Das discussed at length the various methods and techniques popularly used to study eukaryotic gene regulation especially at post-transcriptional level, using yeast as model system. He explained the techniques used to assess biochemical, molecular and functional characteristics of the interacting complexes, the use of Northern Blot and RT-qPCR to study mRNA levels and Western blot analysis to check protein levels under various stress conditions.

His lecture was followed by an intense interactive session. The webinar ended with a sincere vote of thanks and sharing of the feedback link.

Certificate of Appreciation

This is to certify that **Dr. Biswadip Das**, Professor, Department of Life Science and Biotechnology, Jadavpur University, acted as our honorable resource person in **National Level 3-day Webinar Series on Research Methodologies "Science amidst Covid Pandemic: Life Goes On....."**, organised jointly by Department of Microbiology & IQAC of Raidighi College and Department of Microbiology & IQAC of Sammilani Mahavidyalaya on **16th July, 2020**. We sincerely thank him for sharing his valuable knowledge with us.

Feedback form for Webinar 1_July 16th, 2020

Please fill in your personal details carefully

Email *

Valid email

This form is collecting emails. [Change settings](#)

Full Name of Participant *

Short answer text

Designation *

- Faculty
- Research Scholar
- Student
- Other...

Department, Institution (in this format: e.g. Department of Microbiology, Pareshnath College) *

Short answer text

Whether overall organisation of today's session fulfilled expectation *

- Yes
- No
- More was expected

Whether total duration of the lecture was *

- Too long
- Too short
- Good enough to understand the topic

WEBINAR 2

Department of Microbiology & IQAC of Raidighi College
and
Department of Microbiology & IQAC of Sammilani Mahavidyalaya
Welcome you all to the 2nd webinar of the
National Level Webinar Series on Research Methodologies
Science amidst Covid Pandemic:
Life Goes On...
17th July, 2020

Speaker:

Dr. Shaon Ray Chaudhuri
Associate Professor, Dept. of Microbiology, Tripura University

Research Methodology Topic:

Microbial Technology for Clean and Green Environment with Nutritious Food for Masses

Number of registered participants for webinar 2 held on 17th July 2020 were 91

Webinar Summary

The second webinar started with a warm welcome address from the convenors who expressed their appreciation for a large turn out of participants from different institutes and different academic backgrounds as the theme of the webinar had a far-reaching appeal.

The speaker Dr. Ray Chaudhuri passionately described various research methods of microbial technologies that can on one hand gift the planet a clean and green environment and on the other hand convert waste to value added products like biofertilizers, thus helping to feed the masses. Her group has been working on development of waste water specific, tailor-made microbial consortia for treatment with minimum dead mass generation. She is a recipient of the Visitor's (President's) award under Technology category in 2019. She was the founder Director of RCM Bio-Solutions Pvt Ltd and has formed the first startup of Tripura University named 'Waste to Wealth Innovative Technologies LLP' with BIRAC funding.

She presented the various co-inoculation, co-culture and enzyme assay methods for the use of microbial consortium in eco-friendly bio-farming. She also elucidated the methods of microbial versus chemical treatment to produce sustainable and biodegradable fibres and electron microscopy methods to ascertain their properties. She also discussed the methods of in silico strain characterization, phylogenetic analysis, BRIG & MAUVE analysis techniques that has helped her lab to use microbial combination methods for environmental protection and agricultural sustenance.

Her lecture was followed by a long interactive session during which she answered all queries patiently. The webinar ended with the vote of thanks and feedback link was shared.

Certificate of Appreciation

This is to certify that **Dr. Shaon Ray Chaudhuri**, Associate Professor, Department of Microbiology, Tripura University, has acted as our honorable resource person in **National Level 3-day Webinar Series on Research Methodologies "Science amidst Covid Pandemic: Life Goes On....."**, organised jointly by Department of Microbiology & IQAC of Raidighi College and Department of Microbiology & IQAC of Sammilani Mahavidyalaya on **17th July, 2020**. We sincerely thank her for sharing her valuable knowledge with us.

WEBINAR 3

*Department of Microbiology & IQAC of Raidighi College
and
Department of Microbiology & IQAC of Sammilani Mahavidyalaya*
welcome you all to the 3rd Webinar of the
National Level 3-day Webinar Series on Research Methodologies
"Science amidst Covid Pandemic: Life Goes On....."

21st July 2020, 11.30am onwards

Speaker:

Dr. Arnab Mukhopadhyay, Scientist, National Institute of Immunology, New Delhi

Research Methodology of Studying Gene Interactions

Topic: Gene interactions that control longevity

BANNER of WEBINAR 3

Number of registered participants for webinar 3, held on 21st July 2020 were 92

WEBINAR SUMMARY:

The webinar started with warm welcome address from the convenors who appreciated the presence of a number of faculty members, scientists, students and research scholars from various institutes across the country. Their enthusiastic participation itself stressed the solidarity of our scientific community amidst the challenges of the pandemic. The convenors also expressed their gratitude for the support and encouragement received from the Principals and IQAC of both the collaborating colleges.

Dr. Mukhopadhyay discussed at length how *C. elegans* can be ideally used to study gene interactions and gene functions in molecular aging process through the methods of mutational studies and RNAi technology. Time-elapsd microscopy, Fluorescence microscopy techniques, gene expression studies, etc can help establish aging to be a genetically controlled process. At the same time, he also explained the different methods that can be used to study the relation between our diet, gene expressions and signalling pathways (like Insulin-IGF-1 pathway), that can improve our healthy life span. This has immense therapeutic significance as these methods can be used to screen for novel dietary compounds that extend longevity. His lecture aroused much interest as was evident from the elaborate and intense interactive session that followed.

The webinar ended with a sincere vote of thanks and feedback link was shared.

It should be mentioned that the Google meet chat box was overflowing with requests to organize more such webinars in near future.

Certificate of Appreciation

This is to certify that, **Dr. Arnab Mukhopadhyay**, Scientist, National Institute of Immunology, New Delhi, acted as our honorable resource person in **National Level 3-day Webinar Series on Research Methodologies "Science amidst Covid Pandemic: Life Goes On....."**, organised jointly by Department of Microbiology & IQAC of Raidighi College and Department of Microbiology & IQAC of Sammilani Mahavidyalaya on **21st July, 2020**. We sincerely thank him for sharing his valuable knowledge with us.

Subject: Invitation to act as Judge in the ONLINE STATE LEVEL STUDENT COMPETITION to observe WORLD ANTIMICROBIAL AWARENESS WEEK, 2020.

Dear Madam,

On behalf of Raidighi College, I cordially invite you to kindly act as our honorable Judge in the online State Level Student Competition (Poster making by P.G. students of Microbiology from West Bengal), organized by Dept. of Microbiology, Raidighi College and Microbiologists Society, India, to observe World Antimicrobial Awareness Week, 2020.

Thanking you,

Sincerely,

Dr. Sasabindu Jana
Principal

RAIDIGHI COLLEGE In Collaboration With MICROBIOLOGISTS SOCIETY, INDIA
Organizes

ONLINE STATE LEVEL STUDENT COMPETITION

In Observance of

WORLD ANTIMICROBIAL AWARENESS WEEK

POSTER

SLOGAN

← FOR PG STUDENTS

FOR UG STUDENTS →

FREE REGISTRATION & SUBMISSION

For Microbio UG students: <https://forms.gle/vBvaPW5Lkzee6H5h8>

For Microbio PG Students: <https://forms.gle/FZHCUtDwg98ZhbDA>

Submission is strictly through Google forms

NOTE:

TOPICS for SLOGAN/POSTER

- Causes of Antimicrobial Resistance
- Best practices to fight against Antimicrobial Resistance
- Antimicrobial Awareness: Our Role
- Antimicrobial Resistance: A Global Health Threat

ELIGIBILITY

Microbiology students only (current, UG or PG) of West Bengal

RULES

1. English language only
2. Must be original creation
3. Upload as pdf only
4. Can be created digitally or can be hand-made, scanned and uploaded as pdf
5. File size (maximum) 5 MB
6. For Slogan: Maximum word limit is 15; you may add an original image made by you, with your slogan to make it creative
7. For Poster: Single page (be scientific, innovative, creative)
8. One submission per student

Last date of submission: 16.11.2020.

AWARDS AND REWARDS

- E-certificates to all registered participants
- Best submissions will be rewarded by MSI

Result will be declared and
Names of Winners announced on
19.11.2020.

First 50 submissions will be considered in each category; so HURRY !!!!!

... The global burden of infections resistant to existing antimicrobial medicines is growing at an alarming pace...

Antimicrobial Resistance: Growing Global Threat
June 15, 2015 | United Nations Headquarters

INTRODUCTION

Antibiotic resistance is when the organisms such as bacteria, fungi, viruses and parasites resist the effects of drugs making the infection difficult and harder to treat which ultimately results in the increase of disease spread, which causes severe illness and death.

Antimicrobial resistance (AMR) became in the last two decades a global threat to public health systems in the world. Since the antibiotic era, with the discovery of the first antibiotics that provided consistent health benefits to human medicine, the misuse and abuse of antimicrobials in veterinary and human medicine has accelerated the growing worldwide phenomenon of AMR.

The ways of responding to the AMR challenges foresee an array of measures that include: designing more effective preventive measures at farm level to reduce the use of antimicrobials; development of novel antimicrobials; strengthening of AMR surveillance system in animal and human populations; better knowledge of the ecology of resistant bacteria and resistant genes; increased awareness of stakeholders on the prudent use of antibiotics in animal productions and clinical arena and the public health and environmental consequences of AMR.

REFERENCE

ANTIMICROBIAL RESISTANCE : A GLOBAL HEALTH THREAT

SPREAD Resistant bacteria can spread to...

EXPOSURE People can get sick with resistant infections from...

CONCLUSION

Antibiotic resistance has been recognized as a global health problem and considered by major health organizations as the top health challenge in the 21st century.

However one of the main critical factors that affect the correct estimate of the magnitude and extension of the problem for both people and animals worldwide and the effective management, is related to the scarcity of data on types of antibiotics used, amounts, animal species and ways they are used.

ANTIMICROBIAL RESISTANCE: A GLOBAL HEALTH THREAT

DEBASHMITA MANDAL, BIDHANNAGAR COLLEGE

Micro-organisms are termed as "antimicrobial-resistant" or "drug resistant" when they are no longer inhibited by an antimicrobial drug to which they were previously sensitive.

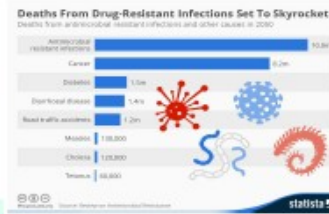

What is Antimicrobial Resistance?

Urgent threats

- Carbapenem resistant *Acinetobacter*
- *Candida auris*
- Drug resistant *Neisseria gonorrhoeae*

Serious threats

- Drug resistant *Candida*
- MRSA
- Drug resistant *Mycobacterium tuberculosis*
- Multi drug resistant *Pseudomonas aeruginosa*

Above picture shows that, drug resistant infections are increased very rapidly and they could cost the global economy as much as \$100 trillion by 2050. Drug resistance infections kill more people than cancer in just over three decades.

So it is the correct time to take drastic actions to tackle the problem.

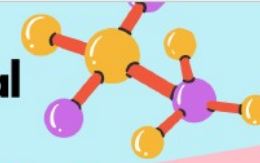

The cost of AMR to national economics and their health system is significant as it affects productivity of patients through prolonged hospital stays.

It needs more expensive and intensive care which everyone can't afford.

Resistance to antimicrobial agents has become a major source of morbidity and mortality worldwide

Causes of Antimicrobial resistance

Shreya Majumdar, St. Xavier's College

Failure of drug to reach target

- Decreased penetration
- Increased efflux through pumps

Target alteration

a. Mutation of natural target

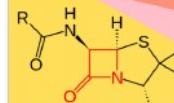

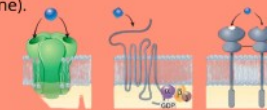

The amino acid composition and conformation of the target for a drug can change.

e.g. Resistance to fluoroquinolones due to mutations in DNA gyrase or topoisomerase IV (the targets of fluoroquinolone).

b. Production of low affinity variant

The target has a low affinity to bind the drug.

e.g. Staphylococcal resistance to methicillin is caused by production of low affinity variant of penicillin binding protein.

Drug is not active

a. Enzymatic inactivation

The most common way resistance develops to penicillin is through inactivation by Beta lactamases (penicillinase).

b. The bacteria will not convert the prodrug to an active form. e.g. Isoniazid resistance - mutation in mycobacterial catalase- peroxidase; prodrug isoniazid is not activated

Bypassing of inhibited metabolic pathway

Alternate metabolic pathways

to those inhibited by the antibiotic can overcome the block in the synthesis of an essential metabolite in bacteria caused by the drug leading to resistance. e.g. Trimethoprim.

Collaborative initiative under MoU between Raidighi College and Sammilani Mahavidyalaya: WEBINAR_ 25th Sep, 2021.

- A National Level Webinar on **‘Intellectual Property Rights: Awareness, Academics & Applications’**, was organised by Department of Microbiology & IQAC of Raidighi College in collaboration with Department of Microbiology & IQAC of Sammilani Mahavidyalaya on 25th September, 2021, from 11am – 2pm. Google meet platform was used.
- Speaker was Dr. Kaushik Banerjee, General Manager, Zydus Research Centre, Ahmedabad.
- IPR is in Microbiology UG Syllabus. It is equally important for all researchers. Hence the two collaborative depts planned this event.
- Details of the program can be found in the following link: <https://www.youtube.com/watch?v=D3kf5wW0O7s&t=2s>
- Total number of registered participants was 79 and included students, research scholars, faculty members from Microbiology and diverse fields (like Chemistry, Mathematics, Political Science).
- The event was highly successful and received positive feedback from all participants.

Program summary:

Dr. Arunima Biswas hosted the event. Dr. Sharmila Chakraborty delivered the welcome address. This was followed by motivational speeches delivered by the two respected Principals of the collaborating colleges who stressed the importance of collaboration in higher education and the significance of continuing teaching-learning and research in the neo-normal mode in spite of the challenges of the lockdown period . The IQAC Coordinators of both the colleges congratulated the organizing depts for this initiative and wished the program a grand success.

Thereafter, Dr. Sharmila Chakraborty introduced the speaker who then discussed at length the role of IPR in academics and business, its various aspects and applications, explained the different terminologies with examples, and elucidated global regulations and the rules of National Law Commission, Govt. of India. His lecture was followed by a brief but productive interactive session. The program ended with the vote of thanks and link for feedback was shared with all participants. E-certificates were sent to their mail accounts.

**Collaborative initiative under MoU between Raidighi College and
Sammilani Mahavidyalaya: WEBINAR_2nd Oct 2021**

A National Level Webinar was organised on 'Career Prospects in Microbiology', on behalf of Department of Microbiology, Career Counselling and Placement Committee & IQAC of Raidighi College in collaboration with Department of Microbiology & IQAC of Sammilani Mahavidyalaya on 2nd October, 2021, from 11am – 2pm.

Speakers were industry personels:

- Dr. Neeloy Samaddar, Manager, Operations and Quality, NCourage Social Enterprise Foundation, TATA Chemicals Ltd.
- Mr. Avik Dutta Gupta, Senior Officer (QC Microbiology), Sun Pharma Laboratories Ltd., Guwahati, Assam.

Link: https://www.youtube.com/watch?v=f_TUw-mNOBE&t=4471s

Total number of registered participants in Google meet platform was 91 and consisted mostly of students, who later gave very positive and encouraging feedback. The webinar aimed to enlighten them on the career opportunities in Microbiology and related disciplines to help them take future career decisions.

There was a special tribute session organised by teachers and students of both the colleges to pay homage to Mahatma Gandhi and Sri Lal Bahadur Shastri.

Present

National level Webinar on
Career Prospects in Microbiology

Certificate of Participation

This is to certify that **Ms. Nabanita Sarkar, Student of Scottish Church College**, has participated in the National Level Webinar on '**Career Prospects in Microbiology**', on 2nd October, 2021 from 11am to 3pm.

 Dr. Santirnanjan Palchoudhuri Principal Sammiloni Mahavidyalaya	 Dr. Sasabindu Jana Principal Raidighi College	 Dr. Sharmila Chakraborty Convener Sammiloni Mahavidyalaya	 Dr. Arunima Biswas Convener Raidighi College
---	--	---	--

Webinar Summary

The webinar was hosted by convenor Dr. Arunima Biswas who invited Dr. Sharmila Chakraborty, also convenor, to deliver the welcome address. This was followed by a special tribute session in which teachers and students of both the colleges paid their humble tribute to Mahatma Gandhi and Sri Lal Bahadur Shastri on their birth anniversary.

After that the Principals of both colleges delivered their special addresses, encouraging students to focus on enhancing their skills to improve their employment opportunity as well as to consider becoming entrepreneurs in their respective field of study. They both expressed their hope that this webinar would help the students choose their career path. The IQAC Coordinators also stressed the importance of skill enhancement and soft skill development to have a successful career.

Dr. Chakraborty introduced the first speaker, Dr. Neeloy Samaddar who then gave a lucid lecture on industrial quality adherence with regards to food and drinking water, a lucrative career scope in industry for budding microbiologists. He elaborated on how a microbiologist can work in R&D sector of food and beverage industry where his job description would include quality assurance, microbial safety, product testing, shelf-life parameters etc of food items like honey, turmeric. He also elucidated global and national drinking water standards and how microbiologists can work in water purification plants.

The next speaker Mr. Avik Dutta Gupta was introduced by one of the organising members Mr. Prabir Sahoo and he went on to talk about career prospects in the pharmaceutical industry where job descriptions include microbial limit test, sterility testing, bacterial endotoxin test and microbial safety testing of a wide range of medicines and medical devices, thus offering employment opportunities for aspiring microbiologists.

Both lectures were followed by intense interactive sessions and the resource persons answered many queries with regards to job profile, working hours, and salary packets in their respective field of work. The webinar ended with sincere vote of thanks and feedback link was shared.
